SUMMARY

Software developer with 5+ years of experience building performance-oriented applications using C# and JavaScript.

Experienced in developing end-to-end products, including API integrations, data processing systems, and real-time architectures.

Strong background in problem-solving, system design, and rapid prototyping.

Currently seeking a software development internship where I can contribute and grow.

TECHNICAL SKILLS

Languages:

C#, JavaScript, Python

Frameworks & Technologies:

Unity, React, React Native, Express.js

Tools:

Git, Axios, REST APIs, Supabase, Prisma (ORM)

Blender, Aseprite, Photoshop, Audacity, Canva,

Concepts:

API Integration, Web Scraping, Async Programming

Object-Oriented Programming (OOP)

Event-Driven Systems, State Management

Performance Optimization

PROJECTS

Scout - Influencer Analytics & Data Automation Tool (In Progress)

- Developed a web-based data collection and analysis tool using JavaScript
- Integrated Twitch and YouTube APIs to fetch influencer data (viewers, subscribers, links)
- Implemented data scraping, filtering, and processing logic
- Automated marketing workflows by transforming manual research into scalable processes
- Technologies: JavaScript, HTML/CSS, Axios, REST APIs

Bug Bane (Steam – Early Access) | Solo Developer

- Designed and developed the entire gameplay architecture using Unity and C#
- Implemented real-time systems including event-driven mechanics and state-based AI
- Optimized performance using object pooling and efficient memory management techniques
- Reached 1500+ users through demo distribution and managed release on Steam
- Handled deployment, updates, and community engagement processes

Foes of Legacy (Steam – Early Access) | Developer

- Collaborated in a 2-person team to build character and ability systems
- Focused on scalable and maintainable code architecture
- Contributed to a demo reaching 1200+ users
- Gained experience in teamwork, version control, and system design

EDUCATION

Pamukkale University | 2022-2026

Management Information Systems (BSc)

GPA: 3.03

ACHIEVEMENTS

2nd Place | 2026

University Graduation Project Presentation

The Pandemic Papers - Computer Game

LANGUAGES

- Turkish (Native)
- English (Intermediate)
